Summary:

"To start my career in a reputed organization where I can apply my technical knowledge, enhance my skills, and contribute to the growth of the company."

Work Experience:

Status: Fresher

🎓 Education:

Bachelor of Computer Applications (BCA)

Final Year (6th Semester)

Indira Gandhi National Open University (IGNOU) | 2023 – 2026 (Expected)

12th Class – 2023

10th Class – 2021

💻 Technical Skills :

- **Programming Languages:** C, C++, Java, Python
- **Frontend:** HTML, CSS, JavaScript, React.js
- **Backend:** Java (Spring Boot), REST APIs
- **Database:** SQL
- **Tools:** Git, GitHub, IntelliJ IDEA, VS Code, Code::Blocks

📁 Project Title: Matyra – Matrimony Website (Self Project)

Role: Frontend Developer

Technologies: HTML, CSS, JavaScript

Description:

Designed and developed a frontend clone of a matrimony website using HTML, CSS, and JavaScript.

Project created for learning and showcasing frontend skills (no backend functionality).

GitHub: <https://github.com/sanjudhoundiyal/myntra-project>

📁 Project Title: Whether App

Role: Frontend Developer

Technologies: HTML, CSS, JavaScript

Description:

Designed and developed a responsive Weather Application frontend using HTML, CSS, and JavaScript.

Integrated a public weather API to fetch and display real-time weather data based on user input

Implemented clean UI design with focus on usability and responsive layout.

GitHub: <https://github.com/sanjudhoundiyal/whether-api>

📁 Project Title: Calculator Application

Role: Frontend Developer

Technologies: React.js.

Description:

Designed and developed a responsive Calculator Application using React.js.

Improved understanding of React fundamentals such as components, props, state, and event handling.

GitHub: https://github.com/sanjudhoundiyal/calculator_project_using-React

📁 Project Title: Login & Registration

Role: Backend Developer

Technologies: Java Framework (Spring Boot)

Description: This is a Login and Registration system built using Java Spring Boot. It connects to a database for storing user information and uses Thymeleaf as the template engine for rendering dynamic web pages.

GitHub: <https://github.com/sanjudhoundiyal/login-form-using-spring-boot>

📜 Certifications:

C, C++, Java, Python

Completed a 1-Year Professional Diploma in Computer Applications, covering:

- MS Office (Word, Excel, PowerPoint)
- Internet & Email
- Operating Systems (Windows)
- Programming Fundamentals

📁 Additional Information

- Languages: English, Hindi

★ Strengths:

- Punctual and disciplined
- Hardworking

🎮 Hobbies & Interests:

- Playing cricket
- Listening to music
